

DAY 4 INTERNSHIP REPORT

Python Backend Development Internship

Name: Benatic Rithan B

Institution: Kalaingar Karunanidhi Institute of Technology (KIT), Coimbatore

Department: Computer Science and Engineering

Date: 11 June 2026

Mentor: Rathees G

Topic: Error Handling and Logging

Assignment: Student Result Processing System

Deliverable: Application with Error Logging

Topics Covered

- Exception Handling
- Custom Exceptions
- Logging Best Practices

Project Description

Developed a Student Result Processing System that validates student marks, handles invalid inputs using custom exceptions, and records application errors using Python logging for debugging and monitoring.

Files Created

student_result.py

error_log.txt

README.md

Day4_Internship_Report.pdf

Learning Outcomes

Learned exception handling, custom exception creation, logging techniques, error tracking, debugging, and application reliability practices.

STATUS: DAY 4 COMPLETED SUCCESSFULLY

Submitted By: Benatic Rithan B
